

Comfort. Savings. Life. Perfectly in tune.

- Welcome to the Lyric thermostat: It can deliver comfort at home and savings when you're away, automatically, based on your smartphone location.
- With the Lyric thermostat, there are no complex menus, complicated programming, or a need to set schedules.
- The Lyric thermostat packs a wealth of innovative features, is simple to use, and is beautifully designed.
- The Lyric thermostat is the latest innovative, connected home offering from Honeywell, the recognized category leader since introducing the iconic Round™ in 1945.

Key Features

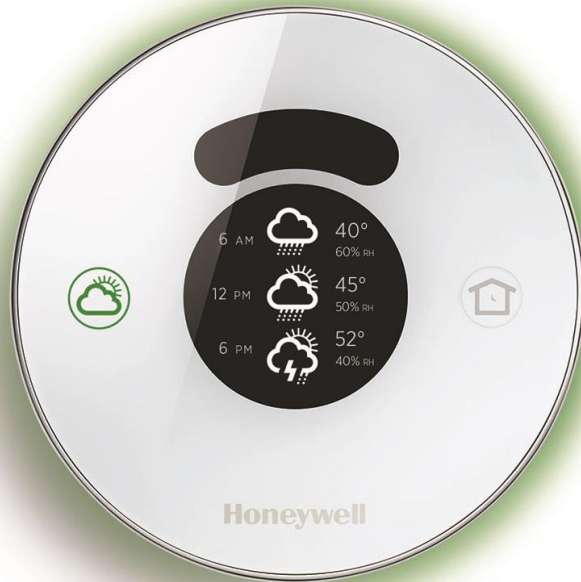

- Geofence**
 - Senses when you are nearing home using your smartphone location and makes your home comfortable ahead of your arrival.
 - Starts saving money the moment you leave home.
- Fine Tune**
 - Factors in indoor temperature, indoor humidity, and weather to maximize comfort.
- Smart Cues**
 - With the Lyric app, you can receive easy to understand guidance on when to change the filter, if and when service is needed, and even where to find a trusted service professional.
- Shortcuts**
 - Event-based scheduling adjusts for settings such as 'sleep' or 'party' for easy comfort and control

Additional Highlights

- Ability to pair with multiple smartphones and tablets (Android / iOS)
- View upcoming weather on the thermostat
- LED-illuminated halo ring – orange (heating), blue (cooling), green (savings)
- Event-based scheduling option
- Monthly performance reports
- IAQ compatibility – universal humidifier, dehumidifier, or vent
- Control for 3 heat/2 cool heat pump, and 2 heat/2 cool conventional systems

Take a closer look at the Lyric thermostat's features.

- | | |
|---------------------|--|
| Controls | Make adjustments using the Lyric thermostat's round dial and touch-sensitive buttons, or via the smartphone/tablet app |
| Geofence | The Lyric thermostat can deliver comfort when you're home and savings when you're away by using location services of your smartphone – no learning required |
| Fine Tune | The Lyric thermostat takes into account multiple elements that ultimately impact home comfort – indoor temperature, indoor humidity, and outdoor conditions – to ensure that 72 degrees really feels like 72 degrees |
| Smart Cues | By sending notification of how your equipment is performing and whether maintenance is required, the Lyric thermostat protects your investment and ensures your system is working as it should |
| Weather Monitoring | The 12 hour weather forecast, which can be viewed right on the Lyric thermostat, lets you see what the day's weather will bring so you can plan ahead |
| Humidity Monitoring | The Lyric thermostat's built-in sensor tracks your home's humidity level and uses that information for the Fine Tune comfort algorithm |
| Connectivity | Wi-Fi |
| Dimensions | 3.0" diameter; 1.0" beveled depth |
| Price / Warranty | \$279 (MSRP) / 2 years; national support network |
